Update on crossing guard coverage

Information about bus routes is now available to parents and guardians at the library. Information about safety drills is now available to community partners at the community center. Accommodations are available on request; ask at City Hall before next week. We have posted an improved program for the vaccination clinic so that neighbors can plan ahead. Last month, more than 92 community partners took part in the library renovation, which exceeded our goal.

Questions about bus routes can be directed to the front entrance, where someone is available to help. This session is part of a larger effort to support board members and to keep kindergarten registration on track. Anyone who cannot attend in person can send comments about the summer reading challenge to the front entrance. The team reviewed feedback on attendance support and made several changes to the review.

Changes to the volunteer program take effect next week, and neighbors will receive a reminder beforehand. Printed copies are available at the media center, and the full details on the senior lunch program are posted online. The long-awaited schedule covers after-school programs and explains how parents and guardians can get involved during the first week of spring. Staff will hold an open session on the sports physical clinic at the district office before the end of the month.

Accommodations are available on request; ask at the library before by the end of the term. Over the past year, students told us that the farmers market was a priority, and this project reflects that. Anyone who cannot attend in person can send comments about the summer reading challenge to the community center.
