The spring budget: dates and details

We have posted an expanded report for the library renovation so that parents and guardians can plan ahead. For the water quality report, the plan is to start small during the first week of spring and grow based on what board members tell us. Printed copies are available at the cafeteria, and the full details on the new playground are posted online. Questions about safety drills can be directed to City Hall, where someone is available to help.

Families are invited to learn more about the road resurfacing over the winter break. The committee will meet starting in January to discuss attendance support and share an volunteer-led guide. In response to requests from community partners, we have added more time for the new reading curriculum. Staff will hold an open session on the facilities plan at Founders Park during the first week of spring.

The committee will meet throughout the school year to discuss the park cleanup and share an expanded workshop. Accommodations are available on request; ask at the main office before next week. Printed copies are available at the north campus, and the full details on graduation planning are posted online.

Details on after-school programs are listed below, along with who to contact at the main office. Details on school lunch menus are listed below, along with who to contact at the community center. Changes to the technology refresh take effect next week, and teachers will receive a reminder beforehand.
