What residents should know about the public hearing

Staff will hold an open session on the robotics club at the north campus before the end of the month. Printed copies are available at the front entrance, and the full details on bus routes are posted online. Teachers are invited to learn more about the road resurfacing over the winter break.

The following steps explain how community partners can take part in the calendar for next year. Accommodations are available on request; ask at the front entrance before throughout the school year. Last month, more than 88 volunteers took part in the energy savings project, which exceeded our goal. In response to requests from community partners, we have added more time for the arts showcase. Thank you to the volunteers who helped with the sports physical clinic; your time made a real difference.

Changes to after-school programs take effect throughout the school year, and staff members will receive a reminder beforehand. For the arts showcase, the plan is to start small by the end of the term and grow based on what staff members tell us. Please check back on weekday mornings for the latest news on language classes.

Anyone who cannot attend in person can send comments about the robotics club to the media center. The long-awaited program covers the science fair and explains how teachers can get involved by the end of the term. This schedule is part of a larger effort to support board members and to keep parent-teacher conferences on track.
