Improved plan announced for the new playground

In response to requests from staff members, we have added more time for the farmers market. Accommodations are available on request; ask at the community center before before the end of the month. Questions about language classes can be directed to the north campus, where someone is available to help. Please check back during the first week of spring for the latest news on the robotics club. Information about the road resurfacing is now available to parents and guardians at the district office.

For the science fair, the plan is to start small starting in January and grow based on what volunteers tell us. Over the past year, community partners told us that the student council election was a priority, and this project reflects that. Funding for the robotics club comes from the regular budget and from local partners.

The team reviewed feedback on the water quality report and made several changes to the session. Staff will hold an open session on the road resurfacing at Founders Park on weekday mornings. The following steps explain how volunteers can take part in after-school programs.

Questions about the senior lunch program can be directed to the aquatic center, where someone is available to help. Thank you to the families who helped with the library renovation; your time made a real difference. We have posted an free project for the road resurfacing so that parents and guardians can plan ahead.
